BY-LAWS

NESAC Core Sports/Events

Academic Games, Basketball, Badminton, Soccer, Track & Field and Volleyball

NESAC core sports/events are those which define the minimum expected commitment of NESAC schools. Attendance and participation in these core activities is mandatory and necessary for continued membership. Only NESAC member schools may participate in core sports/events. Exceptions can be made contingent upon a unanimous vote by the membership.

NESAC Invitational/Sports Events

Band & Choir, Swimming, Leadership Conference

Invitational events are hosted by NESAC schools and NESAC schools are offered priority access. Attendance and participation is optional. NESAC member schools will not schedule alternative invitational events in direct competition with other member schools. Non-member schools may be invited to invitational events at the discretion of the host school.

New events may be offered following a two year process.

1. A host school can invite NESAC schools to a non-NESAC activity for voluntary participation.
2. If the same event is successfully run for two consecutive years with the minimum number of member schools (4) participating, the event may be proposed as an official NESAC invitational addition to the calendar contingent on a unanimous vote.
3. If the event is successfully run with all of the NESAC full members, the event may be added as a core event contingent on a unanimous vote at the Spring Meeting in the second year.

Eligibility

A student is considered eligible if he/she is enrolled as a full-time student in their respective NESAC member school, meeting all of the requirements of their school and:

1. JV - Must be under the age of 16 prior to September 1 of the academic year of participation.
2. Varsity - students who enrolled in four years of high school.

No student may participate in both a JV and Varsity tournament in the same sport.

All member schools are in agreement that NESAC as an organization is committed to amateur athletics and activities. The spirit of NESAC is that participants are expected to be amateur in their NESAC activity.

Roster Size/Chaperone Guidelines

The following is a list of maximum and minimum number of students per roster. In order for a school to receive participation credit, the minimum number of participants must have attended the event including a boys and girls team where applicable. There is one roster per gender, per age group for all athletic events (e.g. Swimming has maximum six (6) for JV Boys, 6 JV Girls, 6 Varsity Boys, and 6 Varsity Girls)

ACTIVITY	Maximum	Minimum
Academic Games	2 Teams of (4+1)	1 Team
Band & Choir (Invit)	20	N/A
Leadership Conference(Invit)	10	4
Volleyball	12	8
Swimming (Invit)	6	N/A
Soccer	18 Boys 14 Girls	16/12
Basketball	12	8
Badminton	5	4
Track and Field	12	4

NESAC Requires at least one chaperone of each gender to travel on any trip with mixed genders groups. Below are chaperone ratio requirements:

- 1-15 students = 2 chaperones
- 16-29 students = 3 chaperones
- 30-39 students = 4 chaperones
- 40-49 students = 5 chaperones

Exception for athletic events: a minimum of 3 chaperones will be sent from each school unless you send less than 10 students, in which case you will still need to have a minimum of two chaperones.

Full Participation is defined as follows: Member schools, through their activities & athletic directors, and coaches, should endeavor to ensure that as many students as the rules allow share in NESAC cultural and athletic events. Participation credit can be earned if minimum roster spots are filled as per the chart above in both boys and girls divisions.

Venue Changes

1. When the head of a host school indicates that the local city/country situation requires a change in venue, there will be a league wide notification immediately.
2. Any principal/head can initiate, through the NESAC president, a question about the safety of a hosting site.
3. The head of the school where the NESAC president is located will be responsible for assessing the feelings first of the host school head and the other heads on the issue of a venue change.
4. Before voting in favor of a venue change, heads of NESAC schools are required to speak to the head or designated head of the host school.
5. The heads of the traveling schools will vote to decide to keep the original venue or to change to the backup site.
6. The heads of each of the traveling schools will be expected to cast a vote.
7. It will take a unanimous vote of the heads of traveling schools to make a venue change.
8. If the vote is to remain with the original site, then the other schools will send the best teams they can assemble or not attend at all.
9. Each year, a back-up school will be designated at the time the sites are decided upon. It is preferable that this will be the previous year's host school.

EVENT ORGANIZATION

NESAC Event Considerations

Factors important to hosting an event:

1. community involvement (spirit-parents-students-staff)

Tournament Draw

Tournament draws/schedules must be communicated to participating schools at least two (2) weeks in advance of the event.

In the event that the host school event director would need to alter the tournament game schedule from the established handbook models, the alternate schedule must be presented to all member schools for a vote at least two weeks prior to the event.

2. Each host school will have a vehicle with a driver and stretcher at all sites (locations).
3. The host school shall alert the medical facilities in the area that may be used in emergency situations about the upcoming NESAC student activities.

Health and Safety

Heat Index Policy

The heat index cut off for playing outdoor games is set at 45 for JV and Varsity games. Games to be modified at 35+ to include more water breaks and rests in shade and/or air conditioned rooms. Any host site regulations with lower temperature thresholds supersede NESAC temperatures.

Modifications to outdoor sports can be made by the host school starting at 150. Modifications may include shortening games, increasing rest periods, moving athletes indoors during down time, offering a break midway through each half in soccer.

Lightning Policy

Games should be postponed if lightning is present within 16km (10 miles) and wait 30 minutes with no thunder or lightning to resume play. Host school to determine method of monitoring (e.g. Weather APP, 30 minutes from last thunderclap, etc.).

Event Days

Event Officials

Every effort must be made to hire bona fide/certified officials for all NESAC athletic competitions. The conference recognizes this expectation may not always be possible. In such situations, the host school must clearly communicate specific details to all participating schools at the same time final game schedules are due (two weeks prior to the event).

1. The Athletic Director at each NESAC event will preferably not have coaching responsibilities. However, given the differing circumstances at each member school, the administrator-in-charge may act as an assistant coach, but not head coach. The responsibilities of administrator-in-charge must have priority over any responsibilities as an assistant coach.
2. Specific Wording of Proposal:

Rationale of Proposal:

Protest/Grievance

1. Differences in opinion or interpretation of rules and regulations that may arise during an NESAC inter-school activity will be handled by the host school's Tournament Director. The Event Director will consult rule books, NESAC By-Laws, and all parties involved, including officials, to resolve the matter as soon as possible while all parties are in attendance at the activity site. The activities/athletic director of a school may submit a letter to the conference Chairperson if questions concerning NESAC By-Laws still remain at the conclusion of an activity. Any questions submitted will be discussed at the next NESAC meeting.
2. The Event Director of any NESAC Event is expected to inform the Chairperson of NESAC as soon as possible should any major problems and/or incidents arise during the Event via the Tournament Evaluation Form.
3. Following an NESAC tournament/event, in the case of a complaint being submitted to the NESAC Chairperson, the Chairperson will investigate the incident as necessary and take action deemed appropriate, including suspension of the tournament, and/or the tournament results and awards, until the matter can be addressed at the next full NESAC meeting. At that meeting, the schools involved in the disciplinary matter will be required to submit a report and/or present an explanation to NESAC members. The NESAC membership has the authority to decide on appropriate action. Unresolved issues involving a possible one year ban from NESAC for an NESAC participant(s) will be brought to the attention of the Heads Ad Hoc Committee for resolution.

Student Conduct/Expectations

Curfew Time: 10:00PM. Upon completion of each day's scheduled events, the participants must return directly to the hotel. **NOTE:** Curfew may be extended a maximum of one (1) hour if scheduled events run late and teams/groups arrive at the hotel past 9:00 p.m. The hosting event director should be notified of any adjustments to NESAC curfew.

Curfew Checks: Curfew checks of all participants, including host school participants, will be made by each school each night of the event to enforce the curfew. The event begins upon arrival at the host school. Decisions regarding curfew checks for late arrivals will be made at the discretion of the event director. Coaches must speak to all the participant(s) to verify that the participants are accounted for. After completing the final room checks, all coaches will apply tape to the outside of the door to ensure students do not leave their rooms.

Individual students who break curfew during a school-sanctioned tournament will be suspended from the next full day of competition or event and will also face appropriate school-based consequences upon return.

Enforcement:

1. All NESAC coaches/sponsors, including those of the host school must enforce the rules and regulations.
2. If there is a suspected rules infraction, the host Event Director will consult the handbook, investigate, and make a decision on whether the infraction actually occurred. The decision will go directly to the coach/sponsor, who in turn will impose specific penalties as listed in the NESAC Handbook.
3. If the event director's decision is appealed, the event director will confer with the administrator-in-charge who will consult the handbook and act as an arbiter who is unbiased and will determine penalties to be imposed.
 - a. ***If this is a serious infraction, the administrator-in-charge and/or event director will inform in writing the NESAC President and head(s) of school of the participating school(s) with the reasoning for the decision based on the NESAC handbook and rules of play.**

NOTE: If the coaches are found condoning the violation of the rules by team members or behaving improperly, they are to be reported to their respective AD or the high school principal.

Final Activity: All participating students, coaches and sponsors are required to attend and remain until the end of the final activity on Saturday night. All schools' coaches/sponsors have the responsibility to provide additional supervision (i.e. groups or team activities and/or earlier curfew on Saturday night).

Rules Infraction:

If any problem should occur with regard to the behavior of any student participant during any NESAC activity or the behavior of any visiting student during their stay in the host city, the following procedures will be enforced:

1. The host school Event Director and senior administrator of the activity will be notified of the behavioral problem.
2. The student's coach/sponsor will be notified of the behavioral problem.
3. The director of the activity and the coach/sponsor of the student(s) concerned will strive to determine all facts relative to the situation, consult the Standard Statement of NESAC Rules, confer, and attempt to reach a common understanding of the problem and situation.
4. The director of the activity will then determine what action will be taken with regard to the student(s) participation in the activity. Courses of action available to the director of the activity are included but not limited:
 - a. The problem or situation is not of sufficient magnitude to merit disciplinary action.
 - b. The student(s) will be allowed to continue participating in the activity with a formal report of the problem or situation being made in writing by the director of the activity and mailed to the administration of the student's school.
 - c. The student(s) will not be allowed to participate further in the activity.
 - d. In extenuating circumstances the student(s) may be sent back to their school at their expense.
 - e. A student in the possession or having used alcohol, tobacco, or illegal drugs will be excluded for one calendar year from NESAC events including the same activity the following year.
 - f. A student committing a major curfew will be excluded for one calendar year from NESAC events including the same activity the following year.
 - g. If at any time a student is suspended from further involvement in an event, then the only results affected will be those happening after the infraction. All pre-infraction results will stand.
 - h. Consequences will be carried over if the student transfers to another NESAC school.
 - i. Tournament Director's decision is final.
5. The coach/sponsor of the student(s) may not set aside any disciplinary action taken by the director of the activity, but may supplement the director's action in any way he/she deems appropriate and in accord with his/her own school's established procedures or philosophy.

After a travel plaque for a specific event has been filled, the school with the final engraving/etching will notify the NESAC chairman, and request a new plaque for the event. The plaques for NESAC will be reimbursed from conference funds. NESAC travel plaques, once filled, will be given to the school appearing most on the plaque. All-NESAC Selections:

In the spirit of NESAC goals, coaches are to designate their quota of “All-NESAC” selections directly to the Tournament Director after their final round-robin game. Coaches may amend their previously submitted All-NESAC selections after their final game. The formula used for All-NESAC selections guarantees representation from every school attending. NOTE: The group selected is an “All-NESAC” and not an All-Star team.

The specific number of players for each All-NESAC team will be decided by place finish (1st place through 8th place) as follows:

1. Football: 3-3-2-2-1-1-1-1 = 14

ACTIVITIES

Academic Games

The NESAC Academic Games consist of competitions in the seven Olympiads listed below. The host school will organize and purchase all Olympiad questions where possible and these questions will be paid for with tournament entry fees. The Olympiads, Rules, Format, Scoring System, Team Awards and Individual Awards will be the same for the Varsity Academic Tournament and for the JV Tournament. However, tournament hosts and participating schools will select a level for the Olympiads that is compatible with the Varsity or the JV level.

Schools participate in the NESAC Academic Games with 1 or 2 teams of four players each (1 sub permitted per team). The team roster will be submitted before the event and cannot be changed once the event has started.

Alternates - Only four students may participate in each round, however the team composition can be changed between rounds. No changes can be made during a round of either the quiz bowl or olympiad.

For NESAC Academic Games tournaments, each school must be able to provide at least one competition grade buzzer system (with lock-out capabilities and at least 4 working push buttons per side) for each division (one for JV and one for Varsity).

- 5) A competitor who leaves the high jump event to compete on the track must enter the High Jump event at the height of the bar upon their return. The bar will not be lowered. The first absence when called will count as a "pass", and subsequent absences will be recorded as "failed attempts".
- 6) A competitor is eliminated from the high jump event when three successive "failed attempts" have been recorded, regardless of the height at which the third successive "failed attempt" is recorded.

- 7) A competitor who is absent when called during the round of the high jump, but returns before the last competitor in that round has been called by the officials, may upon checking in with the officials, take their attempt at the end of that round.
- 8) The event will be held on an all-weather surface; athletes may wear spiked shoes.
- 9) Starting heights for High Jump should be:

JV GIRLS	VARSITY GIRLS	JV BOYS	VARSITY BOYS
1.00M	1.10M	1.30M	1.40M

- 10) The bar should be raised by 5cm after each successful round of jumps is completed.
- 11) When down to the final 6 competitors the bar should be raised by 3cm.

Count back: In the event of a tie, the following procedure will be used to determine final placing:

- 1) The competitor with the lowest number of jumps at the height at which the tie occurs shall be awarded the higher place.
- 2) If still tied, the lowest total number of failures up to and including the height last cleared will be counted.
- 3) If still tied: For First Place, athletes will have one jump at the previous height cleared.
- 4) If a tie still exists for First Place, the Head Field Judge will raise or lower the bar to an announced height, until the tie is decided. Competitors must jump at each height until the tie is decided.
- 5) If a tie exists at any other place other than First Place, it will remain a tie. The points for the positions will be added together and split between the athletes. For example, if there is a tie for Second Place, there will be no Third Place finisher, the points for second and third will be combined and split between the two athletes that tied. 8 points plus 6 points combined is 14 points, so each would be awarded 7 points for second place.

Track Events

- 1) The following events will be run in heats: 100m, 200m, 400m.
- 2) All lanes will be drawn by lot (computer) in advance of the meet by the Meet Director. The draw will be done the same way for all Track and Field events, heats and flights.
- 3) In all the events run in heats, the six fastest times will qualify for the six places in the final.
- 4) The 800m, 1500m and 3000m races will be raced as finals only.
- 5) In finals, lanes will be decided as follows:

Lane	1	2	3	4	5	6
Seed	5	3	1	2	4	6

Seeding will be by time. If heat times are equal, then place in a heat will decide seeding.

Calls:

- 1) First Call is 20 minutes before event;
- 2) Second Call is 10 minutes before event; and

- 3) Final Call is 2 minutes before event.

Lanes: In the events which are run in lanes, all athletes must stay in their lanes at the end of the race until cleared to leave by the Head Timer.

- 1) Athletes will be instructed by the Clerk of the Course/Bullpen manager before the race. Once they have been assigned to a lane or position on the track, they must stay there until receiving the starter's orders.

Starts:

- 1) For these events, 4 x 100m, 4 x 400m, 100m, 200m, and 400m, there will be three commands by the starter: "Take Your Marks" "Set" Gun!
- 2) For the 800m, 1500m, and 3000m events, the races will begin as a waterfall start.
 - a) Lane designations (2 runners per lane) for the waterfall start.
- 3) In all 100m, 200m, and 400m events, athletes must start from a crouch position (starting blocks are optional).

Overtaking:

- 1) All athletes must ensure that when overtaking they do not cut in front of the runners behind.
- 2) Turn judges will be looking for infringements and athletes may be disqualified for obstruction.

Relays

- 1) Heats will be run in the 4x100m and 4x400m relays if more than six scoring teams are competing.
- 2) Athletes from the JV level may move up to complete a Varsity Relay team, but Varsity athletes may not compete down. A JV athlete cannot compete for both JV/Varsity relays in the same event.
- 3) A runner who drops a baton in a relay exchange is not disqualified if it is picked up without impeding any other relay team in adjacent lanes and the recovery does not lessen his/her running distance.

Minimum Standards:

- 1) Participants must be capable of meeting the minimum standard listed below. Please keep in mind that any performances below these standards will certainly leave athletes well out of contention in any event. Moreover, a school's excessive non-compliance with the standards may affect future participation in the NESAC Track and Field Meet.
- 2) If a student finishes an event in the top 6 places with a result that does not meet the minimum standard, they will not receive points.
